

Indicative design of the new Bungendore High School

# Bungendore High School

Project update | 25 March 2024

## Investing in our schools

As part of the NSW Government’s plan to rebuild essential services, the 2023-24 Budget is delivering a historic \$1.4 billion for new and upgraded schools in regional NSW. This targeted investment in growing communities will ensure working families get access to world class public education.

## Have your say – online social impact survey now open

A Social Impact Assessment (SIA) is being prepared as part of the amended State Significant Development (SSD) application for Bungendore High School.

An SIA is a specialist technical study which identifies and analyses the potential positive and negative social impacts associated with a proposal. Social impacts are the consequences that people experience when a new project brings change. Social impacts are those that affect people’s way of life, community, accessibility, decision making, culture, livelihoods, surroundings and health and wellbeing.

The SIA is completed by an independent specialist consultant to ensure objectivity and impartiality in evaluating the social impacts of this project on the Bungendore community.

As part of this assessment, an online survey is now open for the community to respond to. This survey aims to capture the views of users of existing community facilities such as the pool, Mick Sherd Oval and the Community Centre, as well as the current school community.

**Complete the online survey by going to this link or scan the QR code:**

<https://urbis.questionpro.com.au/Bungendore-High-School-Social-Impact-Survey>

The survey will be open from 25 March to 12 April 2024

Responses to this survey are anonymous and form part of the SIA report that will be submitted to the Department of Planning, Housing and Infrastructure for consideration in the determination of the amended SSD application.
