

Jerrabomberra High School

Project update | August 2023

Project overview

Jerrabomberra High School opened on Day 1 Term 1 2023 in purpose built temporary facilities located at Jerrabomberra Public School. Construction of the new permanent high school is underway. It will have modern facilities, with 24 classrooms including 3 support classrooms, to accommodate approximately 500 students. It will deliver a library, multi-purpose hall, canteen, sports courts, covered outdoor learning area (COLA), outdoor space and administration facilities.

Progress update

Works are progressing well on site and are on track to be completed at the end of 2023.

The permanent school will be open for students on Day 1 Term 1 2024.

Development application for Stage 2

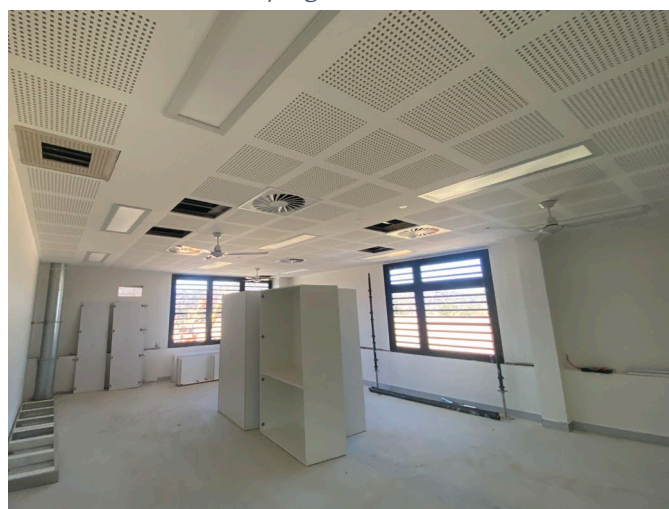

The development application for Stage 2, which would expand the capacity of the school to 1,000 students, has been finalised and lodged with the Queanbeyan-Palerang Regional Council.

We will let you know when the development application is on public exhibition.

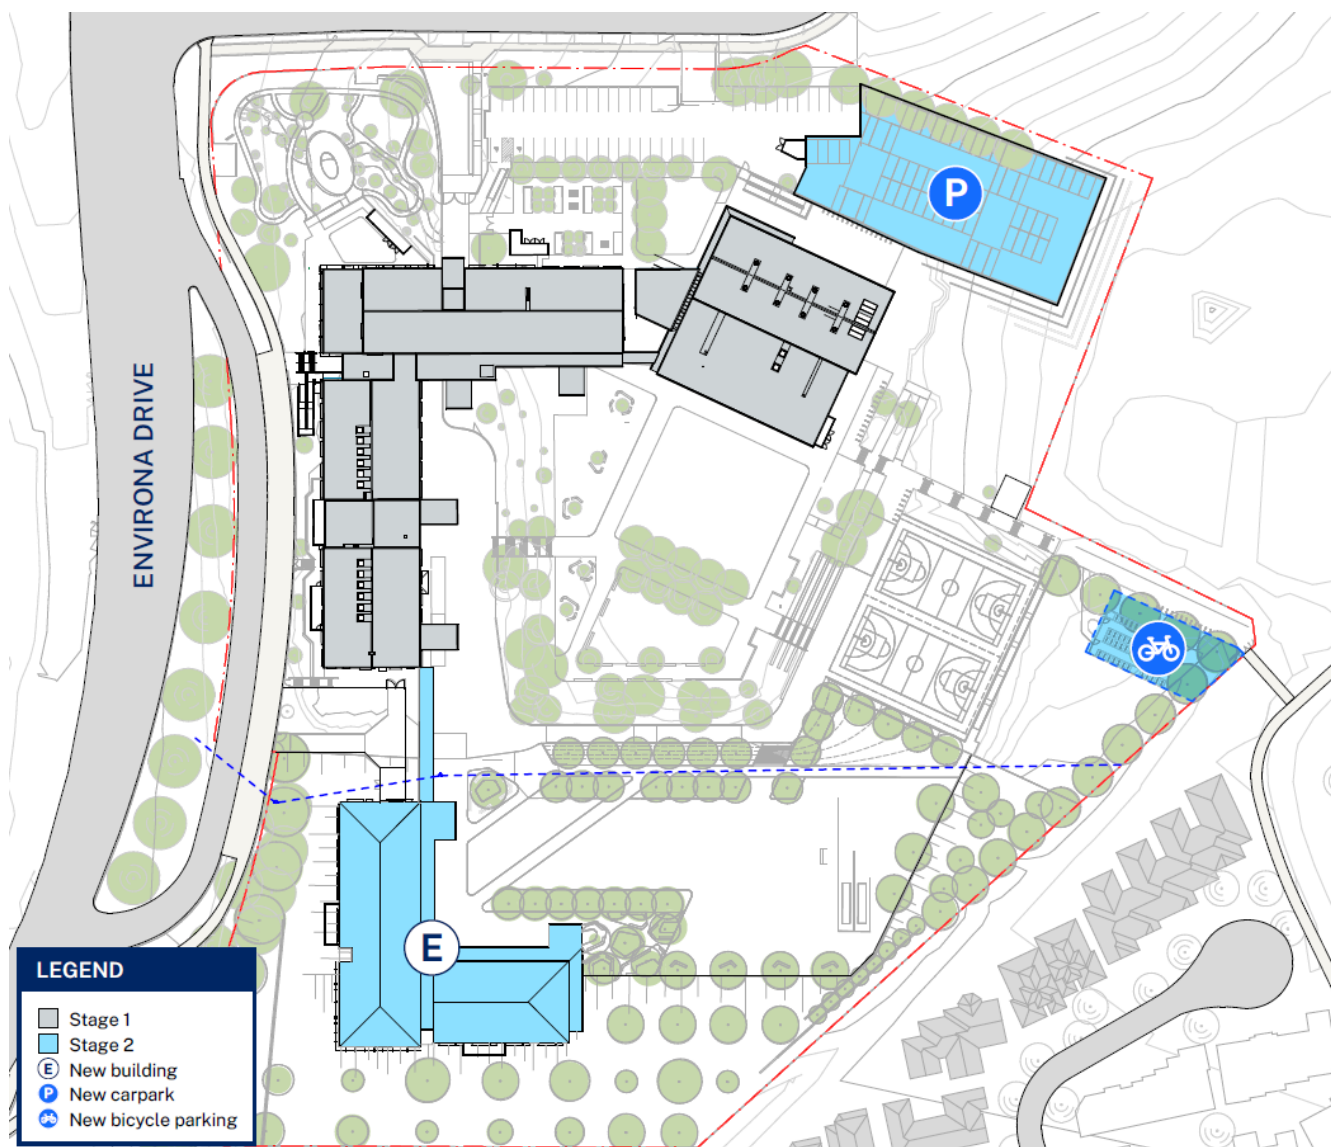

Stage 2 includes an additional building on the southern end of the site, which would house 18 additional classrooms, a vocational education and training (VET) kitchen and a semi-commercial kitchen.

There would also be additional staff facilities, new play spaces and more car and bicycle parking. As a part of Stage 2 the semi-commercial kitchen in Block B of the Stage 1 build would be refurbished into a science lab. The proposed site plan is shown on the next page.

Next steps

The facades of the buildings will be completed, and work will continue on the internal sections of the school buildings and landscaping for the sports courts.

We look forward to continuing to share information with you as the project progresses.
